

COVID-19 SAFETY MEASURES

We will deliberately consider and revisit these criteria to determine what is continued best practices for our schools.

Installed UV LIGHT DISINFECTION UNITS into EVERY air conditioning unit

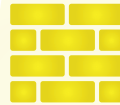

Removed all soft toys, area rugs and toys that are not easily disinfected

We offer parents and students the decision as to whether the student is capable/willing/able to safely wear a face covering at school

400+ hours in COVID specific training for staff

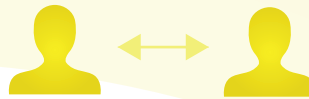

Built and instituted a BARRIER PARTITION for drop off and pick up

Follow the CDC health guidelines

Instituted a '30 minute' policy to ensure that anyone in the program if they feel or become ill will be quickly isolated and picked up/go home

Altered staffing schedules to minimize the number of staff in any EVERY classroom

Routinely sanitize and disinfect high contact surfaces

Instituted a hospital grade disinfectant fogger/mister system to reach even hard to reach surfaces with a non-toxic safe EPA approved disinfectant

Added fun curriculum items about germs and their transmission
